DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: the Specification filed on 05 September 2003,
page 2, line 6, change the phrase "Disclosure" to --- Brief Summary ---; and
page 11, after line 13 insert --- Detailed Description of The Invention ----.
Appropriate correction is required.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 42-68 and 86, drawn to the closure mechanism structure of passageway or bottle, classified in class 222, subclass 270 or 296.
 - II. Claims 69-85, drawn to a computer processing means for communication included in the closure/cap, classified in class 340, subclass 309.15.

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case group I claims the concertina element structure for inserting/removing from the bottle's neck or passageway. The group II claims the

Art Unit: 2612

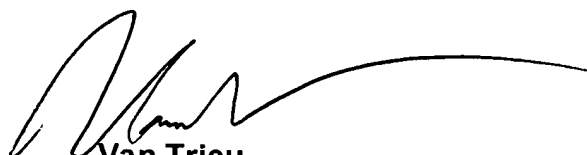

closure/cap of a bottle's neck or passageway includes computer processing means for communicating information data to/from a remote sources or an internal source.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
